

## AirCheck Clima

Digital hygrometer with ventilation recommendation to improve indoor climate

This digital hygrometer provides precise information on the ambient temperature and relative humidity. This practical device saves the minimum and maximum climate values. The user is warned of high air humidity and dryness. If the optimum humidity for people of 40 to 60 % is not maintained or the air is too dry, the indoor climate can be improved through the recommended ventilation. A well-balanced room climate has a positive influence on health, increases comfort levels, and helps avoid damage caused by moisture. The permanent time display and timer function are extremely useful, particularly when used in the kitchen.

- Precise measurement of relative humidity and ambient temperature and saves min./max. readings Measurements
- Visual and acoustic warning of high humidity and air dryness
- Ventilation recommendation to improve indoor climate
- Positive influence on health and comfort levels
- Timer function – perfect for use in the kitchen
- Easy-to-read LC display with time display
- Can be placed on tables, attached to objects, or fixed to metal surfaces
- Attractive design

### TECHNICAL DATA

<b>Measured Variable</b>	Ambient temperature Humidity
<b>Features</b>	Real-time clock MIN/MAX Humidity alarm Timer
<b>Measuring Range Ambient Temperature</b>	-9,9°C ... 50°C
<b>Accuracy Ambient Temperature</b>	± 1°C
<b>Measuring Range Humidity (Relative)</b>	1% ... 99%
<b>Accuracy (Absolute) Humidity (Relative)</b>	20% ... 80% (± 3%) <20% and >80% (± 5%)
<b>Power Supply</b>	2 x 1.5V LR03 (AAA)
<b>Unit of Measurement</b>	°C (Celsius) % rH (relative humidity)
<b>Dimensions (W x H x D)</b>	96 mm x 112 mm x 18 mm
<b>Weight</b>	148 g (incl. batteries)

### SCOPE OF DELIVERY

2x  
AAA

Item No. 082.432A

GTIN (EAN) 4021563722013
